

STEP 7

VALIDATION OF ANSWERS

The screenshot shows the Databricks SQL Editor interface. The left sidebar contains navigation options like Home, Workspace, Catalog, and SQL. The main area displays a SQL query:

```
1 SELECT
2   "Product Category",
3   SUM(CAST("Total Amount" AS DOUBLE)) AS total_sales
4 FROM retail.sales.retail_sales_dataset
5 GROUP BY "Product Category"
6 ORDER BY total_sales DESC;
```

Below the query, a table preview shows the results:

Product Category	total_sales
1 Electronics	156905
2 Clothing	155580
3 Beauty	143515

The interface also shows a 'Run all (1000)' button and a 'Serverless Start...' status.

The screenshot shows the Databricks SQL Editor interface. The left sidebar contains navigation options like Home, Workspace, Catalog, and SQL. The main area displays a SQL query:

```
1 SELECT
2   "Product Category",
3   AVG(CAST("Price per Unit" AS DOUBLE)) AS average_price
4 FROM retail.sales.retail_sales_dataset
5 GROUP BY "Product Category";
```

Below the query, a table preview shows the results:

Product Category	average_price
1 Beauty	184.05537459283389
2 Clothing	174.28774828774828
3 Electronics	181.90058479532163

The interface also shows a 'Run all (1000)' button and a 'Serverless Start...' status.

The screenshot displays the Databricks SQL Editor interface. The top navigation bar includes the Databricks logo and a search bar. The left sidebar shows a catalog tree with the following structure:

- My organization
 - workspace
 - system
 - database
 - retail
 - default
 - information_schema
 - sales
 - Tables (1)
 - retail_sales_dataset
 - Delta Shares received
 - samples

The main editor area shows a SQL query:

```
1 SELECT
2   Gender,
3   SUM(CAST("Price per Unit" AS DOUBLE) * Quantity) AS total_spent
4 FROM retail_sales.retail_sales_dataset
5 GROUP BY Gender
6 ORDER BY total_spent DESC
7 LIMIT 1;
8
9
```

Below the query editor, the results are displayed in a table:

Table	Gender	total_spent
1	Female	233840

The bottom status bar indicates 1 row, 0.84s runtime, and a link to see performance. The right sidebar shows the 'Serverless State...' and 'Schedule' buttons.
